Installation Tips

Steel Plate Installation *(optional)*

Choose a clean and flat wall and fasten the steel plate at the chosen position by using 3M double-sided adhesive tape or screw *(contained)*.

(with built-in magnet, you can choose any metal surface for adsorption.)

Device Installation

Install the device to the fastened steel plate/any metal panel as shown in the following illustration.

After Installation

You can manually adjust the device's angle.

After-sales Service

1. Warranty period shall be valid for 1 year since the date of purchase (*it's subject to purchase invoice; if lost, the device's date of production shall prevail*). For any malfunction caused by inferior quality (*normal usage*), the company will repair it for you free of charge. Meanwhile, exchange of goods (*due to quality problem*) is available to you within seven days.
2. Exceptions are as follows:
 - a. Any malfunction or defect caused by improper usage conditions or environment;
 - b. Any malfunction or defect caused by improper installation, usage, unauthorized maintenance, modification, force majeure or external causes;
 - c. Any malfunction or defect resulted from applying any third-party product, software or component;
 - d. The product's warranty period expires;
 - e. Any malfunction or damage not caused by the product's design, technology and quality etc.
