

AZTECH INTRODUCES KYLA – SMART HOME, SMART LIFE

Integrated home automation system that links safety, security, controls and devices in one app

September 10, 2018 - Aztech, a leading provider of consumer networking, home appliances and LED products, announced its foray into the home IOT arena - introducing Aztech Kyla: Smart Home, Smart Life series of smart home automation products.

Kyla embraces the philosophy of a carefree and relaxing lifestyle, bringing users comfort, peace of mind, and improving energy usage through effective management of devices. Aztech will be launching 4 categories of Aztech Kyla products; Smart Switches, Smart Sensors, Smart Curtains, and Smart Security, to cater to the needs of every household and individual.

The Aztech Kyla series of products can be used independently as a standalone unit or as a cluster of products. When used as a cluster, users will benefit most from the series with simplification of daily

life, automation and easy remote control with the touch of the finger using the Aztech Kyla app.

“We are proud to have Challenger Technologies to be our exclusive launch partner for the Aztech Kyla series of products. Aztech has been in the technology sector for over 32 years and with Challenger, a market leader in the IT retail sector both in online and brick and mortar stores, consumers can be assured that the Aztech Kyla’s smart home products will

bring about changes and improvement in lifestyle and living habits in many ways,” said Ivan Mun, Vice President, Business Development at Aztech Technologies Pte Ltd.

“Coupled with the recent launch of voice assisted devices in Singapore, the timely introduction of Aztech Kyla brings about new dynamics to smart home automation by allowing consumers to control devices using voice commands!”

Key features of Aztech Kyla

- Easy setup, just download the app, add the relevant products and you’re connected!
- Remote monitoring of devices anywhere
- 3rd party system integrator is not necessary – just use the Aztech Kyla app!
- Set automation sequences to instruct your devices what to do seamlessly
- No massive rewiring which is costly and intrusive
- Traditional Infra-red controlled “dumb” devices can now be “smart” too
- Be notified of any intruder alerts or dangerous gas exceeds safe levels with our security or sensor kits
- Set schedules, time zones, timers and countdowns
- Compatible with both Android 4.0 and above, and iOS 8.0 and above
- Voice control compatible with Google Home or Amazon Alexa

KSEN-140-ZB Smart Smoke Sensor

Alarms when there is excess smoke detected indoor.

- 1 Up to 1 year Battery lifespan
- APP APP Remote Mute
- Low Battery Indication
